Summary

Former Business Manager with an absolute love for coding.

Aspiring Full-Stack Web Dev with a very strong commitment in learning and curiosity about the interactions of different parts of software with one-another.

Self-taught from different web resources.

Skill Highlights

- Project management
- Strong decision maker
- Complex problem solver
- Creative design
- Innovative
- Linux lover

Experience

Web Dev experience: 10/2020 – present

Created many projects during my Codecademy course.

Followed many online courses many from youtube and replicated many projects to improve my react and node skills. I also created some websites (blog, ecommerce) using NextJs along with Strapi. Currently working as a freelancer (domestic market and upwork).

Manager - 03/2013 to 09/2019

PurePro Albania, Durres

- Performing general office duties and tasks.
- Arranging the marketing strategy of the company.
- Responsible for contacting with the manufacturers for ordering products.
